Microsoft Visio 2007/ Windows  
Server 2008  
User CAL

**The outcome?**

"The Microsoft products have helped us shape our strategies and operations and then implement our IT infrastructure for improving communication."

Asomi is a leading microfinance institution (MFI), currently operating in the state of Assam. Just in six short years, Asomi has grown to over 30 branches and 150 employees, establishing itself as one of Assam's leading non-governmental organizations (NGOs) engaged in social transformation.

Asomi is currently planning to launch its biggest venture yet: "OPERATION RAINBOW," a complete solution for farmers and the disadvantaged.

After receiving donations from BiG Tech, Asomi has been producing reports using Microsoft Word, creating financial analysis and other reports using Microsoft Excel, designing processes, structures, and workflows using Microsoft Visio and using the Windows Server system to manage its networks.

Mr. Das, Area Supervisor, says, "The Microsoft products have helped us shape our strategies and operations and then implement our IT infrastructure for improving communication."
